REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-15 recite a semiconductor memory device and a method of selecting a reference cell among a plurality of reference cells in a semiconductor memory device.

The device comprises an address transition detector for detecting transition in input of addresses by which a memory cell is selected among the memory cells, and transmitting an address transition detecting signal indicative of the detected transition; a counter for counting the address transition detecting signals; and a reference cell decoder for selecting a reference cell among the reference cells in accordance with an output transmitted from the counter. The method comprises counting the pulses and selecting a desired reference cells among the reference cells in accordance with the number of the pulses.

The prior art does not teach or suggest the memory device and method having at least the above limitations recited in independent claims 1 and 15. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
